

**Do you want to improve your project working competences, gain working life experience, and solve genuine working life challenges for real clients?
Participate in the renewed Project Aces training!**

Project Aces is a training programme that offers the possibility to gain competences in project management through a real client project. The clients of the course represent the local companies, associations and public sector organisations. The client project is executed in multidisciplinary and international teams of 3-5 students. In addition, a Kick-off Camp and joint meetings are arranged to support the project work.

We offer...

- challenging client cases to solve
- project management experience
- experience in multidisciplinary teams
- coaching and support for the project work
- contacts and experience for further job-hunting

We expect...

- readiness to meet challenges
- initiative and responsibility in the client project
- active role in team working
- motivation and commitment to executing the project

To whom?

The training is aimed at undergraduate and master level students of the higher education institutions of Turku, and for graduates of 2014. For undergraduates, two years of successful studies is recommended. Also foreign degree students and exchange students are welcome, if they are in Turku from January until mid-May.

When?

The training is organised from 12 Jan to 5 May 2015. The Kick-off Camp on 12 Jan is compulsory to all students. The full schedule is available on our web site.

How to apply?

- More information on the training and student applications is available at www.projektiassat.fi.
- **Application period: 10–30 Nov 2014.** Apply online and enclose your CV. All applicants are interviewed in groups.
